I'm a developer with experience in Java (Spring Boot), focused on building and maintaining backend applications and APIs. I consider myself responsible and committed, I enjoy working in teams, adapt easily to different environments, and approach problems in a logical way to find effective solutions.

## EDUCATION

---

**Bachelor**  
**2019 - 2021**

IES Nuestra Señora de la Cabeza in  
Andújar (Jaén)

**Higher degree of application development**  
**2021 - 2023**

IES Francisco Ayala in  
Granada

## EXPERIENCE

---

**Ditrateg**

**March 2023 - June 2023**

- Developed a transport management application in a team of 4
- Worked with **Angular, Node.js, Docker** and **Git**
- Gained experience in application development and deployment

**T-Systems Iberia (Java School)**

**September 2023 - January 2024**

- Independently designed and developed a **train ticketing system** from scratch
- Built backend with **Spring Boot** and managed data with **PostgreSQL**
- Used **Git, Docker,** and **SonarQube** for version control, containerization, and code quality

**T-Systems Iberia (AUDI Tooling)**

**February 2024 - January 2025**

- Full-stack development and maintenance of a **web application**, working both frontend and backend components
- Strong focus on backend using **Spring Boot**
- Built and maintained **APIs** and application features
- Actively involved in **bug fixing** and issue resolution
- Used **GitLab, PostgreSQL** and **Docker** in a team environment

## **T-Systems Iberia (AFW BMW)**

**January 2025 – Present**

- Working on a project providing Level 2 support for autonomous vehicle systems (BMW)
- Using **AWS services**, including **Lambda functions**, and developing in **Python**
- **Monitoring, troubleshooting, and resolving incidents** in production environments
- Collaborating with the **team** to ensure system reliability and continuous improvement

## **SKILLS**

---

### **Technical Skills**

**Backend:** Java, Spring boot, Python, Hibernate

**Frontend:** JavaScript, Angular, React, Typescript, Bootstrap, Tailwind CSS

**Database:** MySQL, PostgreSQL,

**Tools & Technologies:** Docker, GitHub, Maven

### **Soft Skills**

Teamwork, Adaptation to change, Responsibility, Problem-solving mindset
